MEMORANDUM FOR RECORD

SUBJECT: WBAMC Water Advisory

1. On April 6, 2022, out of an abundance of caution for the safety of our patients and staff I made the determination to limit the use of the main domestic water supply due to the discovery of sediment and discoloration.

2. After consulting with technical subject matter experts, the decision was made to allow use of the domestic water for:

Routine hand washing (non- surgical), patient and staff showering, and use of emergency showers.

3. Domestic water is not to be used for:

Any patient procedures that require clean conditions; dental procedures; drinking or other consumption; sterile processing activities; food and beverage preparation; or utilization at emergency eye wash stations.

4. The point of contact for this memorandum is the undersigned.

A handwritten signature in black ink, appearing to read "B. Venable", with a horizontal line extending to the right.

BRETT H. VENABLE  
COL, MS
