

We achieved The Gold Seal of Approval[®] from The Joint Commission

What does this mean?

The Joint Commission's Mission

To continuously improve health care for the public, in collaboration with other stakeholders, by evaluating health care organizations and inspiring them to excel in providing safe and effective care of the highest quality and value.

LEADING the way to

The Joint Commission enterprise is a global driver of quality improvement and patient safety in health care. Through leading practices, unmatched knowledge and expertise, and rigorous standards, we help organizations across the continuum of care lead the way to zero harm. Like you, we believe in providing the best possible care – every time – to each and every patient.

What is The Gold Seal of Approval® from The Joint Commission?

Our facility voluntarily underwent a thorough evaluation by The Joint Commission. The goal of the evaluation? To see if our facility meets the Joint Commission's rigorous performance standards in delivering quality, safe care. By meeting these standards, our facility received The Gold Seal of Approval® – an internationally recognized symbol of quality.

The Joint Commission accredits and certifies more than 22,000 health care programs worldwide and focuses on continually improving health care by setting the highest standards for health care quality throughout the world. In setting the standards, The Joint Commission consults doctors, nurses, and quality and safety experts to review the current standards and make recommendations for improvements.

Accreditation and Certification

Achieving accreditation and/or certification means that our staff has made an extra effort to review and improve the key areas that can affect the quality and safety of your care.

Accreditation and certification by The Joint Commission are considered the gold standard in health care. Specially trained health care professionals who are experts in their fields visited this facility to conduct a review that monitors how well our staff:

- provide a safe environment for your care
- educate you about the risks and options for your diagnosis and treatment
- protect your rights as a patient, including your privacy rights
- evaluate your condition, before, during and after diagnosis and treatment
- protect you against infection
- plan for emergency situations
